Plant Cell, Tissue and Organ Culture **59:** 239–241, 1999.

CONTENTS Volume 59 1999

Volume 59 No. 1

In vitro shoot regeneration from leaves of wild pear
E. Caboni, M.G. Tonelli, P. Lauri, S. D'Angeli, C. Damiano **1–7**

Genetic stability of hairy root cultures of _Datura stramonium_
A. M. Baíza, A. Quiroz-Moreno, J. A. Ruíz, V.M. Loyola-Vargas **9–17**

Improved production of potato microtubers using a temporary immersion system
E. Jiménez, N. Pérez, M. de Feria, R. Barbón, A. Capote, M. Chávez, E. Quiala, J.C. Pérez **19–23**

Protoplast culture and paclitaxel production by _Taxus yunnanensis_
J.-P. Luo, Q. Mu, Y.-H. Gu **25–29**

Influence of chitosan, acetic acid and citric acid on growth and tropane alkaloid production in transformed roots of _Brugmansia candida._ Effect of medium pH and growth phase
S.I. Pitta-Alvarez, A.M. Giulietti **31–38**

The effect of oxygen partial pressure in bioreactors on cell proliferation and subsequent differentiation of somatic embryos of _Cyclamen persicum_
A. Hohe, T. Winkelmann, H.-G. Schwenkel **39–45**

Evaluation of sole nitrogen sources for shoot and leaf disc cultures of sugarbeet
C.-J. Tsai, J.W. Saunders **47–56**

The ability of _Prunus avium_ × _P. pseudocerasus_ 'Colt' to form somatic embryos _in vitro_ contrasts with the recalcitrance of _P. avium_
Z. Mandegaran, A.V. Roberts, N. Hammatt **57–63**

Influence of genotype and gelling agents on _in vitro_ regeneration by organogenesis in sunflower
E. Flores Berrios, L. Gentzbittel, H. Serieys, G. Alibert, A. Sarrafi **65–69**

Research notes

Genotypic variation in anther culture and effect of ovary coculture in durum wheat
F. J'Aiti, O. Benlhabib, H.C. Sharma, S. El Jaafari, I. El Hadrami **71–76**

Effect of genotype and season on gynogenesis efficiency in _Gerbera_
A. Tosca, L. Arcara, P. Frangi **77–80**

Volume 59 No. 2

Production of hybrid calluses via donor-recipient fusion between _Microcitrus papuana_ and _Citrus sinensis_
J. Liu, X. Deng **81–87**

Plant regeneration of mangosteen via nodular callus formation
S. Te-chato, M. Lim **89–93**

Effects of growth regulators and incubation period on *in vitro* regeneration of adventitious shoots from gerbera petioles
T. Orlikowska, E. Nowak, A. Marasek, D. Kucharska **95–102**

Effects of carbohydrate addition on the induction of somatic embryogenesis in *Hevea brasiliensis*
G. Blanc, N. Michaux-Ferrière, C. Teisson, L. Lardet, M.P. Carron **103–112**

Evaluation of a closed system, diffusive and humidity-induced convective throughflow ventilation on the growth and physiology of cauliflower *in vitro*
S.M.A. Zobayed, J. Armstrong, W. Armstrong **113–123**

Aneuploid plants derived from crosses with triploid grapes through immature seed culture and subsequent embryo culture
S.M. Park, M. Hiramatsu, A. Wakana **125–133**

Manipulation of division symmetry and developmental fate in cultures of potato microspores
L. Říhová, J. Tupý **135–145**

Research notes

Micropropagation of *Pinus heldreichii*
D. Stojičić, S. Budimir, L. Ćulafić **147–150**

Ear culture as a technique to overcome hybrid necrosis in wheat
M. Dalal, K.V.S. Vijaya Lakshmi, R. Khanna-Chopra, S. Bharti **151–154**

***In vitro* cold storage of cork oak shoot cultures**
A. Romano, M. Amélia Martins-Loução **155–157**

Volume 59 No. 3

***Agrobacterium*-mediated Japonica rice transformation: a procedure assisted by an antinecrotic treatment**
G.A. Enríquez-Obregón, D.L. Prieto-Samsónov, G.A. de la Riva, M. Pérez, G. Selman-Housein, R.I. Vázquez-Padrón **159–168**

The analysis of differential gene expression in early somatic embryogenesis on *Lycium barbarum*
K. Cui, G. Xing, L. Qin, X. Liu, Y. Wang **169–174**

Micropropagation of *Lippia junelliana* (Mold.) Tronc.
H.R. Juliani (Jr), A.R. Koroch, H.R. Juliani, V.S. Trippi **175–179**

Seasonal variation in antioxidant enzymes and the sprouting response of *Gmelina arborea* Roxb. nodal sectors cultured *in vitro*
J. Thakar, S. Bhargava **181–187**

Plant regeneration capacity of mesophyll protoplasts from *Brassica napus* and related species
Q. Hu, S.B. Andersen, L.N. Hansen **189–196**

Organ culture of a precious Chinese medicinal plant – *Fritillaria unibracteata*
S.L. Gao, D.N. Zhu, Z.H. Cai, Y. Jiang, D.R. Xu **197–201**

***In vitro* propagation of a semi-dwarfing cherry rootstock**
A.-S. Muna, A.-K. Ahmad, K. Mahmoud, K. Abdul-Rahman **203–208**

Tissue culture of the alternate hosts of wheat, rye and oat rusts and their response to *in vitro* inoculation with the rust pathogens
S. Zilkah, E. Faingersh, A. Rotbaum, R. Dvorkin, T. Eilam, Y. Anikster **209–215**

Research notes

Storage proteins in sugarcane: An interesting exception in monocots
M. de los A. Blanco, M. Segura-Nieto, R. Castillo, N. Nieves **217–218**

Regeneration through organogenesis in rattan
M. Kundu, R. Sett **219–222**

Simplified clonal multiplication of mulberry using liquid shake culture
P.K. Tewary, S. Oka **223–226**

In vitro* propagation of *Valeriana jatamansi
R. Kaur, M. Sood, S. Chander, R. Mahajan, V. Kumar, D.R. Sharma **227–229**

Instructions for authors **231–235**

Author index **237**

Contents Volume 59 **239–241**
